company overview

McFranc Safety Solutions is a multi-faceted Exempted Micro Enterprise (EME) entity duly registered in The Republic of South Africa as McFranc Investment (Pty) Ltd to distribute a comprehensive range of Personal Protective Equipment (PPE) and Security Equipment in State Owned Entities, civic organisations, SMEs and private corporations be it in the manufacturing, mining, agriculture or mining sector. Founded in 2016, we are a division of McFranc Resources a proudly 51% Black Woman, Youth Owned multi-faceted organisation holding BBBEE contribution Level 2 status with 125% procurement recognition.

Recently we launched our scaffolding business as a value added service to our product portfolio and the growth frontiers thereof have already generated superior returns to our shareholders, partners, clients and all our other shareholders.

vision

To be a world class provider of secure, innovative, effective and efficient business solutions most valuable to all our stakeholders – our staff, clients, shareholders, regulators and the communities that we live in.

mission

A continuous commitment to service excellence as a leading global enterprise in Personal Protective and Security Equipment as well as Scaffolding business, not only anchored on efficient trade facilitation but supported by our deep-rooted ambition of building safety in work environments, not only safe guarding and improving the quality of life for the citizenry but also creating value for our stakeholders.

core values

- Professionalism
- Customer Service
- Honesty
- Excellence
- Ownership
- Teamwork

MINING SUPPLY SOLUTIONS

Over the years **McFranc Safety Solutions** has grown substantially and evolved into a key player in the mining sector becoming a leading distributor for numerous Original Equipment Manufacturers (OEM) supplying to large mining operations in the SADC region.

Our **Industrial and Mining Supplies** division was established in August 2018 as a value add to our safety solutions business due to demand by our customers' needs for a *"ONE STOP SHOP"* that provides a whole boutique of products and services across the whole mining sector operations framework.

We are an agile company that adapts to our customers' changing and challenging needs. We foster a culture of discipline, detail and dynamic determination that attracts high performing employees and results in masterful delivery.

core business

SAFETY (PPE) & SECURITY EQUIPMENT

McFranc Safety is a leading distributor of Personal Protective Equipment (PPE) in South Africa as well as other Sub-Saharan countries. Through our South African based manufacturing partner, we create and provide quality products in the safety and security related arena. Our range of products varies from simple utilitarian and well-designed products, to specific high-tech product ranges manufactured according to stringent and tested standards, which include:

- Accreditation with the South African Bureau of Standards (SABS)
- Compliance with ISO 9001 standards
- Ranks highly among the largest regional manufacturing companies surpassing multinational companies in the industry.

Our diverse but quality product range includes but is not limited to:

- Arc Flash Protection
- Electrical Insulation Equipment
- Petrochemical Industry Protection
- Fall Arrest
- Head and Face Protection
- Feet Protection
- Respiratory Equipment
- Mining Equipment
- Water Safety
- Chemical Protection
- High Heat Equipment
- Riot Equipment
- Barriers and Safety Signs
