## company overview

McFranc Medicals is an Exempted Micro Enterprise (EME) entity duly registered in The Republic of South Africa as McFranc Investment (Pty) Ltd to distribute a wide range of hospital furniture and equipment, medical equipment and consumables, as well as medical kits to diverse institutions be they private hospitals and clinics, government health institutions and departments, NGOs, military and other civic organisations within the health sector. Founded in 2016, we are proudly a 51% Black Woman, Youth Owned multi-faceted organisation holding BBBEE contribution Level 2 status with 125% procurement recognition.

Our business has grown from strength to strength since inception due to industry specific experience and with a strong and experienced senior management team leading the way, McFranc possesses the capabilities and know-how to tackle some of the most complex business scenarios across country borders.

We are duly registered and have regional offices in Zimbabwe, Mozambique and Zambia with plans to expand into the entire Southern African region.

## VISION

To be a world class provider of secure, innovative, effective and efficient business solutions most valuable to all our stakeholders – our staff, clients, shareholders, regulators and the communities that we live in.

## MISSION

A continuous commitment to service excellence as a leading global enterprise in hospital and medical supplies, not only anchored on efficient trade facilitation but supported by our deep-rooted ambition of not only ensuring easy access to medical supplies and improving the quality of life for the citizenry but also creating value for our stakeholders.

## CORE VALUES

- Professionalism
- Customer Service
- Honesty
- Excellence
- Ownership
- Teamwork

## corebusiness

We are highly passionate about ensuring access of high quality medical supplies to all people in Africa irrespective of their race or social class. Built on this noble commitment, McFranc Medical distributes a wide range of medical equipment and consumables for corporates, clinics, security forces as well as private and government hospitals.
